

Software Requirement Specification (SRS)

Cocoonz Preschool & School CRM

1. Introduction

This document defines requirements for a multi-branch School CRM and Fee Management System.

2. Objectives

Manage admissions, fee collection, branches, classes, daycare, activities, reporting and communication.

3. User Roles

Super Admin, Branch Admin, Accountant, Teacher, Parent (optional portal).

4. Branch Management

Create and manage multiple school branches with separate fee structures and reports.

5. Student Management

Admission, profile management, class allocation, parent details and document management.

6. Fee Structure Module

Admission Fee, Tuition Fee, Book Fee, Skill Development Charges, After School Activities Fee and Daycare Fee.

7. Fee Type Logic

Full Fee with 5% tuition discount and Term Wise collection with Term 1, Term 2 and Term 3.

8. Admission Workflow

Enquiry → Registration → Admission → Fee Assignment → Receipt Generation.

9. Fee Collection Workflow

Generate dues, collect payments, print receipts, track balances and overdue amounts.

10. Dashboard

Collection summary, dues, admissions, branch performance and monthly trends.

11. Reports

Daily, Monthly, Branch-wise, Class-wise, Outstanding, Discount and Collection reports.

12. Notifications

SMS, WhatsApp and Email reminders for due fees and announcements.

13. Database Tables

Branches, Classes, Students, Parents, Fee Structure, Student Fee Mapping, Collections, Receipts, Users and Roles.

14. Security

Role-based access, audit logs, backups and secure authentication.

. Future Enhancements

Attendance, Transport, Payroll, Inventory, Parent App and Learning Management.
